

DANA 60

Toyota LandCruiser 70 Series

Engineered to be a bolt in upgrade, the Dana 60 axle is built for serious offroad, inside and out.

It boasts:

- A larger 3.25L oil capacity with improved duty cycle
- Increased track width for improved off-road stability
- Increased strength and durability
- Designed to re-use the original vehicle brakes, ABS, hubs and wheels
- Supplied fitted with heavy duty Eaton Electronic Diff Lock

EXPORTING WORLDWIDE
